

3-D Sod® Blend

Solutions for your Environment™

The Original Blend

3-D Sod Blend is the original Darker, Denser, Dwarf Kentucky Bluegrass blend varieties with similar texture and growth habits yet genetically diverse in their composition. Excellent dark green color with excellent powdery mildew resistance. Provides a rapid spring green up out of dormancy. Varieties used are generally from the Compact types and Compact America types. Extremely versatile sod blend.

- Original 3-D Sod
- Extremely Versatile
- Dark Green Color
- Genetically Diverse
- Reduced Inputs
- Stay Within Mowing Cycles - Varieties having Similar Vertical Growth Patterns

DARKER:

3-D Sod has been specially designed to yield a naturally darker turf. Simply put, this means less fertilizing! You'll be able to have the same rich green lawn you expect without the use of costly and sometimes harmful chemicals.

DENSER:

Aside from the aesthetic beauty of a thick lawn, 3-D Sod's improved density will help compete with weeds by actually squeezing them out! Plus, 3-D Sod will green-up quick in the spring giving you the first green lawn on the block.

DWARFER:

Our 3-D Sod provides less vertical growth and a lower canopy height. It's an attribute with a benefit that is terribly simple to understand... less mowing! Stop spending all weekend working on your lawn rather than just enjoying it.
