

# 3-D Tall Fescue

## BLUEGRASS MIXTURE

Solutions for your Environment™

## Exceptional Turf Qualities

The selected Elite Tall Fescue varieties have the ability to spread by rhizomes and or by aggressive tillering. These turf type Tall Fescue also exhibit strong drought tolerance characteristics. The addition of an Elite Enhanced Kentucky Bluegrass accelerates harvesting ability and increases sod strength for high quality Sod Traits. The Tall Fescue and Kentucky bluegrass varieties used are Dark green in color with excellent disease resistance.

- Fast Establishing
- Quick harvesting attributes
- Drought Tolerant Varieties for Reduced Water Use
- Excellent Disease Resistance
- 3-D Dark Green Color

### DARKER:

3-D Sod has been specially designed to yield a naturally darker turf. Simply put, this means less fertilizing! You'll be able to have the same rich green lawn you expect without the use of costly and sometimes harmful chemicals.

### DENSER:

Aside from the aesthetic beauty of a thick lawn, 3-D Sod's improved density will help compete with weeds by actually squeezing them out! Plus, 3-D Sod will green-up quick in the spring giving you the first green lawn on the block.

### DWARFER:

Our 3-D Sod provides less vertical growth and a lower canopy height. It's an attribute with a benefit that is terribly simple to understand... less mowing! Stop spending all weekend working on your lawn rather than just enjoying it.

If it's not 3-D Sod, It's Just Grass®
