

3-D Sod®

WATER STEWARD BLEND

Solutions for your Environment™

Drought Tolerant

100% Turf grass Water Conservation Alliance (TWCA) Approved drought tolerant Bluegrass Blend. The varieties used in 3-D Sod Water Steward Blend are backed by science and have been selected by a peer group review process. This cutting-edge research has now set the standards for drought tolerant varieties that stay green longer in drought, and recover faster when coming out of dormancy. Couple these strong water saving attributes with the known 3-D Sod turf quality standards. Water is the driver of the turf grass industry.

- Water Conserving Sod – Reduced Water Use
- Varieties Selected/Approved By TWCA
- Meets TWCA Sod Specifications
- Backed by Scientific Research
- High Quality Sod Traits
- It's your turn to become a Steward of the environment

DARKER:

3-D Sod has been specially designed to yield a naturally darker turf. Simply put, this means less fertilizing! You'll be able to have the same rich green lawn you expect without the use of costly and sometimes harmful chemicals.

DENSER:

Aside from the aesthetic beauty of a thick lawn, 3-D Sod's improved density will help compete with weeds by actually squeezing them out! Plus, 3-D Sod will green-up quick in the spring giving you the first green lawn on the block.

DWARFER:

Our 3-D Sod provides less vertical growth and a lower canopy height. It's an attribute with a benefit that is terribly simple to understand... less mowing! Stop spending all weekend working on your lawn rather than just enjoying it.
